HDM CORP. HELPS CUSTOMERS COMPLY WITH NEW NATIONAL PROVIDER IDENTIFIER (NPI) FINAL RULE FOR MAY 23, 2007 DEADLINE

(Omaha, NE) HDM Corp. announces that Qwik+FILE[®] - HIPAA compliant claim submission software - is fully compliant with the new National Provider Identifier (NPI) Final Rule under the Health Insurance Portability and Accountability Act (HIPAA). The new NPI rule goes into effect on May 23, 2007 and mandates that providers and payers use a designated 10-digit numeric provider identifier for all HIPAA standard administrative and financial transactions. HDM Corp. can pass the customer's NPI number on to the payers to ensure that their claims will be accepted with no delays, even if their practice management system has not yet been upgraded with NPI.

Many payer and provider organizations are undertaking massive efforts to comply with the NPI rule and may not make the deadline. This tedious process can prove to be a huge challenge for medical practices and potentially put a hold on a large portion of their revenue collections. It is the goal of HDM Corp. to allow its entire client base to become NPI-compliant without the hassles of expensive upgrades or potential loss of revenue due to delays.

As a provider of state-of-the-art claims submission and compliance, Qwik+FILE[®] is constantly updating its desk-top system with the latest payer and industry requirements to maximize revenue and operational workflow for clients. HDM Corp. has worked with clients to get their NPI numbers

in advance and currently has 90% of its customers NPI compliant. To learn more about Qwik+FILE[®], <mailto:qwikfile@hdmcorp.com>.
